This Conference Proceeding is brought to you for free and open access by the The (International) Association of Fish & Wildlife Agencies Conservation Collection at Digital Commons at Michigan State University College of Law. It has been accepted for inclusion in Resolutions by an authorized administrator of Digital Commons at Michigan State University College of Law. For more information, please contact domannbr@law.msu.edu.

WHEREAS, the Act (P.L. 89-72) requires that full consideration be given to recreation enhancement as a purpose of federal water projects, and

WHEREAS, the Act further provides that a nonfederal public body must execute an agreement before construction to administer land and water areas for recreation enhancement and to repay all costs of operation, maintenance and replacement of facilities plus at least one-half of all construction costs and project modifications, including water for a recreation pool and evaporative loss, which are specifically allocated to recreational uses, and

WHEREAS, fiscal limitations would prevent adequate administration of the areas, and impose inequitable cost-sharing responsibilities on state and local political subdivisions who rarely have adequate funds to meet cost-sharing obligations;

NOW, THEREFORE, BE IT RESOLVED, that the International Association of Game, Fish and Conservation Commissioners reaffirms its recommendation that the Federal Water Project Recreation Act (P.L. 89-72) be repealed or amended to make costs of facilities nonreimbursable for anadromous fish, migratory waterfowl, endangered species and estuarine resources, and also for water control and storage and control facilities; eliminate the \$28 million limit on land purchased for waterfowl as part of water projects; and insure that, (a) separable costs of basic access, sanitary, and safety facilities would be Federal costs; (b) fish and wildlife losses will be satisfactorily compensated before enhancement features are cost-shared; (c) the expansion of fish populations naturally occurring in impounded waters is in no way considered to be enhancement; and (d) interest requirement would be waived on cost-share repayments.

Resolution 24

FISH AND WILDLIFE MANAGEMENT AND PUBLIC ACCESS ON MILITARY INSTALLATIONS

WHEREAS, the Department of Defense has issued directives to implement the Sikes Act (P.L. 86-797) to carry out fish and wildlife management and conservation measures on military reservations; and

WHEREAS, these directives call for public use and access to military installations when such use does not interfere with the military mission of such installation; and

WHEREAS, fish and wildlife management and public access programs are usually determined by the commanding officer; and

WHEREAS, some commanding officers have not given desired consideration to these programs:

NOW, THEREFORE, BE IT RESOLVED, that the International Association of Game, Fish and Conservation Commissioners requests that the Secretary of Defense establish a compliance committee composed of military and civilians with expertise in these programs and the military missions.

BE IT FURTHER RESOLVED, that this committee periodically inspect and review installation compliance with Department of Defense directives relating to fish and wildlife management and public access activities and report their findings to the Secretary of Defense.

Resolution 25

ADMINISTERING PITTMAN-ROBERTSON AND DINGELL-JOHNSON FUNDS

WHEREAS, it is proposed in the draft National Plan for Outdoor Recreation which will be submitted to the President of the United States for approval to shift Pittman-Robertson and Dingell-Johnson programs out of the Bureau of Sport Fisheries and Wildlife to the Bureau of Outdoor Recreation; and
